

动态及其它

命名建议——以 *Eugaleaspis* 代替 *Galeaspis* Liu, 1965, 以 *Eugaleaspidae*, *Eugaleaspidiformes* 代替 *Galeaspidae* Liu, 1965 和 *Galeaspidiformes* Liu, 1965

刘玉海

最近 L. B. Halstead 博士来信,向我转告了国际动物命名委员会秘书 R. V. Melville 博士的宝贵意见,指出 *Galeaspis* 在无颌类和三叶虫中异物同名。经查对有关资料,证实 *Galeaspis* 在我订名为泥盆纪一无颌类的属名之前, Ivshin 1965 年已用作寒武纪三叶虫的一个属名。因此,本人建议以新名 *Eugaleaspis* 代替 *Galeaspis* Liu, 1965, 同时建议以新名 *Eugaleaspidae* 和 *Eugaleaspidiformes*, 分别代替依据 *Galeaspis* Liu, 1965 建立的 *Galeaspidae* Liu, 1965 和 *Galeaspidiformes* Liu, 1965。

A NOMENCLATURAL NOTE ON *EUGALEASPIS* FOR *GALEASPIS* LIU, 1965; *EUGALEASPIDAE* FOR *GALEASPIDAE* LIU, 1965; *EUGALEASPIDIFORMES* FOR *GALEASPIDIFORMES* LIU, 1965

Liu Yuhai

Recently Dr. L. B. Halstead kindly passed on Dr. R. V. Melville's useful advice to me about the homonym between the generic names *Galeaspis* in Agnatha and in Trilobita. It is true that *Galeaspis* Liu, 1965, a Devonian agnathan, is a junior homonym of *Galeaspis* Ivshin, 1962, a Cambrian trilobites. I therefore propose the generic name *Eugaleaspis* to replace *Galeaspis* Liu, 1965.

At the same time, for the higher taxonomic names based on *Galeaspis* Liu, 1965, I propose the new names *Eugaleaspidae* and *Eugaleaspidiformes* to replace *Galeaspidae* Liu, 1965, and *Galeaspidiformes* Liu, 1965, respectively.
